

## Student Device Return Frequently Asked Questions

### 1. When can students start returning their devices?

Students can return their devices at any point, as long as the devices are not needed for coursework or finals. Students need to check with their teachers to verify timelines for individual classes. Sites can develop plans for coordinating device return.

### 2. Can students keep their devices to use during finals?

YES. Teachers need to communicate with their students whether or not the device will be required for the final. Once a student has completed all finals that require a device, they can return it.

### 3. Do all 9-12 students have to return their devices by the last day of school?

NO. If a student is enrolled (not just balloted, but enrolled) in Summer School, then they will retain their device until they finish with Summer School.

### 4. Do all 7-8 students have to return their devices by the last day of school?

YES. Junior high Summer School students will use devices from a COW (computer cart).

### 5. If a student has summer work because they are in AP, IB, or AVID classes, do they keep their device?

NO. They will return their device to facilitate updating to the newest Windows software. AP, IB, and AVID students that need a device for summer coursework can check-out an updated device between Wednesday, June 12, 2019, through Tuesday, July 2, 2019. They will retain this device through the 2019-2020 school year. If a teacher is assigning summer work and wishes to utilize Schoology then they will need to follow these instructions ([LINK](#)). The instructions found here ([LINK](#)) can be provided to students to help them join the teacher's summer course.

### 6. Can a non-MCS incoming 9th grader check out a device for summer course work?

NO. Students who are entering MCS from a feeder district are not added to our system until after Summer School has ended and the new enrollment data is rolled over for the new school year. If there is a need for a student to complete summer coursework, the teacher will need to plan for this accordingly.

### 7. When is the last day for students to return their device?

Friday, June 7, 2019. The only exception to this are those students who are enrolled in Summer School.

### 8. When do 12th graders turn in their devices?

The exact dates will vary depending on the site and their senior activities plan. All seniors must turn in their devices, and clear any damage debt, prior to being cleared for graduation. Contact site admin for the specifics at your site.

### 9. What happens if a student chooses not to return their device?

The district will mail home demand letters to the parents requesting the device be returned. If it is not returned, the parent will be charged \$200 for the missing device.
